An Information Guide on Education Sri Lanka published

Neptune Publications published a comprehensive guide on Education in Sri Lanka recently in association with JobsNet – The National Employment sourcing and delivery system Sri Lanka, recently. It is the first time that a directory guide on Education in Sri Lanka is published in Sri Lanka.

The book comprises information with regard to the what, when, where and how of Education in the country. JobsNet recognizes the importance of access to information relating to education and training in order to develop a competitive workforce for Sri Lanka supported the publication of this useful guide. Knowledge, skills and training is important and mostly the lack of knowledge on what is available, where is not known among the general public. From the kindergarten to Tertiary and vocation education, as well as other supporting mechanisms of both the government and the private sector, in relation to Education and the world of work is aptly covered in this book. The guide is also available through a web portal, for on-line reference, which can be reached through www.jobsnet.lk

The guide is written in a manner, which allows one to seek alternative schools and colleges for education, find out different vocational, technical, professional courses on offer and also touches on the area of education and training for the special child, in a separate section. The guide would be useful also for Sri Lankans based overseas contemplating return to find out the avenues for education, as well as for expatriates to understand the functioning and
